Sounds great! 😊

I think we're so close to having this prob cracked... nobel peace prizes all round!

Too be honest I think these things appear amplified in a forum whereas we could prob sort all this out very quickly over a few pints 😊

what about both? he progressees things how he sees fit and everyone votes 😊 it's not rocket science.

you are being very duplicitous over all this, the sway of opinion is overwhelming - do you not think that maybe we all have a point? the common denomonator is you and the ownership to the name of marks awards.

I have been on here longer than anyone, and one of the very first thing you learn is that just coz a few people online at one moment say one thing is right does not mean that every single other member will see it in the same light.

perhaps not but when you consider who those members are, how long they've been here, how many people they have directly helped and how much they've contributed to the forum then i would say you had better take notice, these are not idiots mouthing off but genuine concerns from genuine people.

it would take more guts to back down and go with the consensus rather than blindly dig in your heels. i hope we get to see the best in you dan.

i'm off to bed, i have to be up at six but i really want to stay until this is sorted.

if i'm grumpy tomorrow i'll blame the lack of sleep 😊

So many times in the past we have had group of people calling for changes to be made on this forum, and I have always stuck to what I believe is correct and best for EVERYONE. If I had a track record of getting things wrong we should only have about 10 people online at peak times, and not well over 100. If you as a member feel I continue to get thing wrong I would ask why your here? 😊 why be a member of a forum that you dont like?

So what is the problem with having the name of the awards registered in joint names (you and FPR)?

Why turn down FPR when he made this request? That just comes across as you having taken advantage of FPR.

hear hear, i don't have any problems with how things are run. if i've mentioned it in my post's it purely as a comparison to try to make a point of how mark might be feeling.

i'm purely concerned about this matter nothing else.

Im sorry but most of that list of people have fallen in to a trap by blindly following the views of a small group of people, and not really standing back and looking at the facts 😊 Its a sorry story, but we have seen it time and time again.

technically impossible

if fbr wants the name the .net/.org versions can still be registered

no problem there

until this is sorted there will be bad blood between people, have you not felt the vibes on the forum recently?

i find it staggering also you only feel that people should argue their own case and not speak up on behalf of others? i have better things to do than have pointless arguments with strangers at 1.20am. i'm here, pursuing this because i believe strongly that it needs resolving in order for us all to move on, with a clean slate.

if you knew me and what i'm about this would come as no surprise to you, perhaps you will get to see that over time.
